

Central Intelligence Agency
Washington, D.C. 20505

29 August 1984

Executive Director

Executive Registry

84-8012

NOTE FOR: DDA

Harry:

We talked yesterday about energizing the President to take a strong stand with respect to high level Government people taking secure documents with them as they leave their current assignments. It seems to me that the group's sense was that this was an important thing to do and that it was possibly doable. Would you pull together a proposal for the Director's consideration to help us try to solve this problem?

James H. Taylor
